AN INTRODUCTION TO

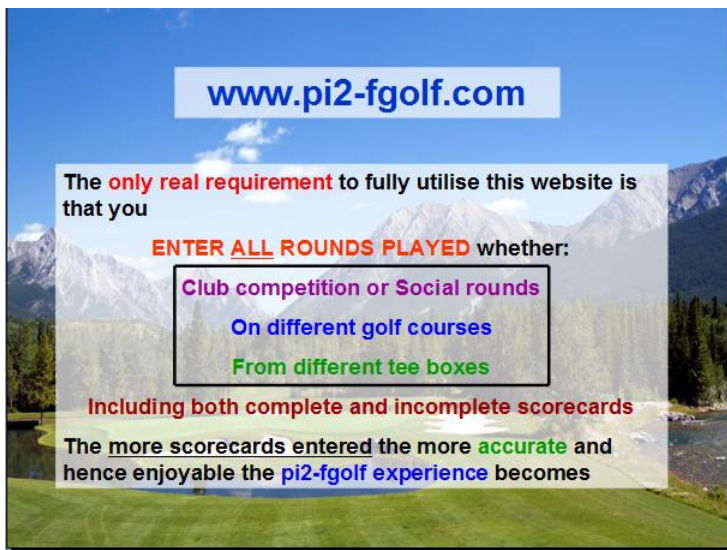

www.pi2-fgolf.com

The **unique** website that enables you to compete as an **EQUAL**

WITH ANY PLAYER
OF ANY ABILITY
FROM ANY COUNTRY

WITHOUT HAVING TO APPLY YOUR HANDICAP

Just play your rounds of golf as **NORMAL** and the website does the majority of the rest.

www.pi2-fgolf.com

The **only real requirement** to fully utilise this website is that you

ENTER ALL ROUNDS PLAYED whether:

Club competition or Social rounds
On different golf courses
From different tee boxes

Including both complete and incomplete scorecards

The **more scorecards entered** the more **accurate** and hence enjoyable the **pi2-fgolf experience** becomes

USERNAME

It is recommended that you use your own name so that:

1. When you invite others to participate in a competition they will know who it is from.
2. When you receive an invitation you will know who has sent it.
3. You will recognise all participants listed in competition results.
4. If another User with the same name has already registered then just add anything to distinguish between you
e.g. extra initial - Sam **J** Lee, number - Sam Lee **02**
home venue - Sam Lee **Belfry** etc.

USERNAME - EMAIL ADDRESS - PASSWORD

EMAIL ADDRESS

This enables the website to provide **individual security** as your **Personal Details** can only be changed by entering a **Validation Code**.

This **Code** is issued to your email address to ensure only you receive it.

USERNAME - EMAIL ADDRESS - PASSWORD

PASSWORD

As with any other website it is important that you **do not share** your password with anyone.

The password must contain at least **EIGHT** mixed characters and be something of relevance to you (easily remembered) but not to anyone else.

For example: ***Paris150824**

The location/date of a particular incident

MY DETAILS

To request this code simply enter the **Captcha Code** indicated into the dialogue box.

This will authorise the email containing the **Validation (UNLOCK) Code** to be sent to you.

MY DETAILS

Look in your Inbox for an email from the website. Highlight and copy this **Verification (UNLOCK) Code**.

Obviously you should never divulge your email password to anyone and it is this simple precaution that ensures that your pi2-golf details remain secure.

This link will be deactivated in approximately 2 hours.

MY DETAILS

Return to the website, paste in the **Validation Code**, make the required changes and to save them enter the new **Captcha Code**.

Where a club has **3 separate 9-hole courses (A/B/C)** the total number of data capture forms required will not only depend on how many tee boxes each has but also whether:

Any two are to be played in the **same order** to complete an 18-hole round

Any two can be played in **any sequence** to complete an 18-hole round.

The key issue is whether the Hole Handicap sequence differs for each of the above.

MY DETAILS

CLUB OFFICIALS

For Example:

Course combinations to be played in set order

1. Course A **THEN** Course B
2. Course A **THEN** Course C
3. Course B **THEN** Course C

There are in effect 3 courses available which will require a data capture form to be completed **FOR EACH TEE BOX** present.

So if there are **White/Yellow/Red** tees on each course and any **data differs** (e.g. Course Rating/SSS) then **(3x3) NINE** data capture forms will be required if

MY DETAILS

CLUB OFFICIALS

If the **SAME** 9-hole course is played twice then treat as any other 9-hole course. This means there are now 6 course combinations available.

1. Course A / Course A
2. Course A / Course B
3. Course A / Course C
4. Course B / Course B
5. Course B / Course C
6. Course C / Course C

The number of data capture forms required will be determined by the tee boxes present

MY DETAILS
CLUB OFFICIALS

If the Stroke Index is fixed for each hole it will not matter whether play actually starts on Course A (1st) or Course B (10th). Treat as though commencing on the 1st or 10th on an 18-hole course.

	COURSE A									COURSE B								
Hole	1	2	3	4	5	6	7	8	9	1	2	3	4	5	6	7	8	9

Three 9-hole courses

The difficulty arises where the order of the 2 courses played affects the hole handicap.

For example:

Index 1 will be Index 1 of the first course played.

This in effect makes

Course A THEN Course B

Very different from

Course B THEN Course A

MY DETAILS

As these are in effect 2 different courses both have to be entered

Course A/B Course A Index 1 remains Index 1

ENTERING SCORECARD DATA

ENTERING A SCORECARD

The pi2-fgolf© website is based on an **original** and **unique** concept/algorithm© that calculates the strokes **YOU** should **NORMALLY** take on a particular course.

To achieve this the website only requires details of the **date** and **course played** together with the **gross strokes** taken by you on each hole during that round of golf.

It is important therefore that the any hole **not completed** (ball picked up/lost) and **not played** (closed for maintenance) are clearly indicated.

ENTERING A SCORECARD

ENTERING THE FIRST SCORECARD

ALL courses listed on the www.pi2-fgolf.com website are recorded to allow a full 18-hole round of golf to be assessed.

For this reason a value needs to be entered for each of the 18 holes on the selected data capture form.

If the first scorecard entered involves a round over 18 holes then enter the strokes taken on each hole.

It is where the **first scorecard** involved some of the 18 holes **not being played** or a **no/score** that a special requirement exists. Refer to 9-hole courses (6th illustration below)

ENTERING A SCORECARD

ENTERING THE FIRST SCORECARD

The **first scorecard entered** is extremely important as the website assumes that you have **never played golf** before this round and will be the starting point for all future assessments.

In order to provide a unique **pi2-fgolf assessment** the website requires some prior knowledge of your game.

For this reason **no assessment will be provided for the first three scorecards** entered.

The website will then use these to make an assessment of the 4th scorecard.

The first 20 assessments will tend to fluctuate as the data available is still relatively limited.

ENTERING A SCORECARD

ENTERING THE FIRST SCORECARD

Although not necessary, it is recommended that to enjoy the website assessments in full from the outset you **enter as many past rounds** (ideally 20+) played on your home course as possible.

This provides the website with sufficient data to to give an **immediate meaningful assessment** of your actual golf ability. The more you can enter the more accurate this first assessment will be.

Any previous round on your home course can be entered and obvious sources will include your **own of social round records** together with those available from your Club/Society **Competition Secretaries**.

To enter your round the venue **must** be listed and the course scorecard previously entered by a **Club Official**.

If the course/scorecard is **not listed for selection** you will need to politely ask a club official if they would be kind enough to add it for you.

Once selected, a data capture form containing the relevant scorecard section will appear.

A value must be entered for all 18 holes. E.g. if a 9-hole course is only played once then enter a value of '0' (dnp) for each of the holes 10-18'. The website can only assess rounds played in the correct hole sequence (holes 1 - 18).

9-HOLE COURSES

If only 9 holes are played then a **0 (ZERO)** must be entered for each of the 9 holes not played.

This does not apply if the **VERY FIRST** scorecard entered does not involve scores on all 18 holes.

The first scorecard entered must have an actual score for all 18 holes.

ENTERING A SCORECARD

The **7** strokes taken on the **first hole** is also entered for the **10th** which wasn't played.

The **5** strokes taken on the **4th** is also entered as the **12th** score etc

The Back 9 will thus be identical to the front 9 played

This **only applies to the first round entered**, the **DNP (0 value)** must then be entered for holes not played during all further rounds.

ENTERING A SCORECARD

ENTERING THE FIRST SCORECARD

If the first scorecard involves a round of 18 holes but where one was **closed for repair**.

e.g. **Hole 11 Par 3 SI 8**

Enter the strokes taken on another **Par 3 whose SI is closest to 8**

e.g. **Hole 5 Par 3 SI 11**

This also applies for any hole played but not completed. (**/ N/S**)

Summary

The first scorecard must **NOT CONTAIN ANY 0 OR /**

ENTERING A SCORECARD

Entering the **correct date that the round** was played is crucial and for this reason you are asked to double check and confirm this together with the **Gross Strokes per hole** before it will issue the assessment.

Once entered you will not be able to enter a round played **prior to this date** so always enter the **oldest** scorecard first

SCORECARD ASSESSMENT

Even though Hole 11 wasn't completed (/) and holes 17 and 18 not even played (0) the pi2-fgolf website is still able to provide a unique assessment of the round.

SCORECARD ASSESSMENT

Although the website did not provide an assessment for first 3 scorecards entered they are essential for assessing the 4th and future rounds.

SCORECARD ASSESSMENT

The first pi2-f assessment is therefore based on the first 3 scorecards entered.

OCC (18) T. Blue	2014-01-16	4	5	5	3	5	5	5	3	5	3	3	5	2	5	4	38	35	73	NORMAL	NORMAL	NORMAL

The **forty-second pi2-f assessment** will be based on the **forty-one scorecards** already entered. So obviously, the more scorecards used to evaluate your game the more accurate the assessment becomes.

SCORECARD ASSESSMENT

Where a small number of scorecards have been entered what is considered a **NORMAL** round will fluctuate considerably meaning that assessments will tend to fluctuate between **DIRE** and especially **SUPER**.

However, as more rounds are submitted (**20+**) the website will be able to converge more accurately on the **NORMAL** and subsequent assessments will reflect this.

SCORECARD ASSESSMENT

The website is '**DYNAMIC**' as the algorithm involved immediately re-calculates what is a **NORMAL** round for you each time you enter a scorecard.

It will recognise that your normal game has **improved** if a series of rounds assessed as **SUPER** have been entered. Therefore, what had been assessed as a **NORMAL** round a few months ago would now be assessed as a **POOR** one.

SCORECARD ASSESSMENT

For this reason it is advised that for **pi2-golf COMPETITIONS**, assessment accuracy should be based on participants entering **a minimum of twenty scorecards/pi2-golf assessments**.

Similarly, for **TRUE ACCURACY** all scorecards must, wherever possible, be submitted irrespective of venue, course or tee played (and for both **social** and **competition** rounds).

ANALYSING YOUR GOLF

The historical list of colour-coded assessments provide an immediate **at-a-glance summary** of how your golf is progressing.

Too many **reds/pinks** indicate that you are not playing as well as you normally do.

Blacks/grey indicate that you are enjoying better rounds than normal. All will have an affect on what is regarded as **NORMAL** for your next assessment.

ANALYSING YOUR GOLF

Below is an example of a regular golfer.

Normal rounds together with some good and bad spells.

Note the **N/S (!)** and **DNP (0)** holes are also colour-coded

ANALYSING YOUR GOLF

As already indicated, **pi2-fgolf** assessments are **'DYNAMIC'** in that each scorecard you enter provides an immediate, and updated reflection of your current level of play.

In the previous example, a final round score of 74 strokes played on 2014/02/01 was classed as a **NORMAL** round.

A more recent round of 74 strokes (played on 2014/07/04) was regarded as **POOR**.

This indicates that this player's game must have been improving slightly over those 5 months.

THE pi2-golf COMPETITIONS

pi2-golf COMPETITIONS

Perhaps the most **unique feature** about this website is its ability to create and run **pi2-golf competitions**

WITHOUT HAVING TO ORGANISE A SPECIAL EVENT.

- No need to timetable events in the busy annual golf calendar.
- No need to close the course to hold events.
- No need for participants to be present :

at a specific course

on a specific day

at a specific time

pi2-golf COMPETITIONS

With the few fund-raising exceptions outlined in the Terms and Conditions

ALL pi2-golf competitions created by this website

MUST BE FREE TO ENTER

pi2-fgolf COMPETITIONS

Your assessments are **unique and personal to you** indicating whether your latest round of golf is better or worse than the standard you normally play at.

The website simply considers the course being played and what score you should expect to complete it in given your previous rounds.

IT TRULY IS JUST YOU AGAINST THE COURSE

What it does **not do** is attempt to **EQUATE** your golf ability with another player **and for this reason it NEVER requires/applies your official golf handicap.**

pi2-fgolf COMPETITIONS

However, the website does **enable users to enjoy meaningful competition with one another.**

pi2-fgolf competitions are **unique** in that they

DO NOT involve the usual golf comparisons of:

- Which player took the **LEAST STROKES** to complete the round (with or without handicap allowances).
- Which player accumulated the **MOST STABLEFORD POINTS** when completing the round (with or without handicap allowances).

pi2-fgolf COMPETITIONS

Instead, the competitions compare who played **BETTER/WORSE** than **NORMAL** when completing their round.

Furthermore, unlike total strokes/stableford points pi2-fgolf competitions can involve players whose rounds are played:

- On **different courses** (not for **ECLECTIC** competitions)
- In **different countries**
- On **different days**
- In **different conditions**

INCLUDING THOSE ROUNDS THAT ARE INCOMPLETE

pi2-fgolf COMPETITIONS

All website users can create as many pi2-fgolf SOCIAL competitions as they wish but these must be **FREE-TO-ENTER** i.e. **no entry fee requirement** to participate (Terms & Conditions to apply at all times).

The **ONLY EXCEPTION** to this key condition of website use is where a **REGISTERED CLUB OFFICIAL** wishes to create such a competition but **entry must be restricted to their own members** and then only for the purpose of raising funds for their club or a named charity.

pi2-fgolf COMPETITIONS

The Terms & Conditions implicitly indicates that **YOU** are only to accept an invitation to participate in a competition requiring an entry fee that has been sent by a **KNOWN OFFICIAL of a Golf Club you are a full member of**. These competition invitations will clearly **name the official** raising these funds and for what purpose.

The website recommends that such entry fees **MUST** be paid to **the NAMED OFFICIAL (or their representative)** at your golf club.

pi2-fgolf COMPETITIONS

Should you ever receive a fee-paying invitation from **someone who is not a recognised incumbent official** at your club the **Terms & Conditions** clearly state that it is **ENTIRELY YOUR RESPONSIBILITY** to **decline it**.

Failure to abide by this key website condition will result in the termination of your access to the pi2-fgolf website irrespective of the number of days remaining and competitions currently engaged in.

THE pi2-golf COMPETITIONS

You will need to click on the **competitions tab** in order to create or accept an invitation to participate in someone else's competition

pi2-golf COMPETITIONS

The first thing to note is that all competitions created **WILL BE FREE TO ENTER**. With strict exceptions (refer to Terms & Conditions) no-one is to request an entry fee to enter a pi2-golf competition created with this website.

Create a new competition...

Registration Type:

All competition invitations will automatically indicate that entry is **FREE**.

You do not have the choice to de-select this.

pi2-golf COMPETITIONS

The exciting feature of these **FREE** competitions is that you are able to **INVITE ANYONE IN THE WORLD** to compete with you.

To do so you only need to know either the:

Username

or the email address

they have registered with the website.

pi2-fgolf COMPETITIONS

**THE WEBSITE NEVER REQUESTS
HANDICAP DETAILS (ACTIVE/NON-
ACTIVE) OF ANY USER**

AND YET IT STILL

**ENSURES COMPETITIVE EQUALITY
BETWEEN ALL PARTICIPANTS**

(of any AGE, GENDER and ABILITY)

pi2-fgolf COMPETITIONS

The website enables players to compare their individual assessments by creating (at present) **three types** of competitions:

1. The pi2-fgolf **original** format
2. The pi2-fgolf **eclectic** format
3. The pi2-fgolf **knock-out** format

pi2-fgolf COMPETITIONS

The Original pi2-fgolf format

The selected scorecard assessments of each player are tabulated from SUPER – DIRE and positional points awarded.

Where more than one round is involved these are accumulated.

Furthermore, it automatically provides separate table positions for:

Full round - Front 9 round - Back 9 round

Individual Hole Eclectic

Over the selected number of rounds the website identifies, and then only includes, the best performance on each hole.

Knock-out (As per Original Format above)

Each round only scorecards of the remaining participants are available for selection. Those whose pi2-fgolf assessments are subsequently in the **BOTTOM HALF** of the table are then eliminated until only one remains.

pi2-fgolf COMPETITIONS

All pi2-fgolf competitions are truly unique as they create **FAIR COMPETITION** between all participants irrespective of their:

age, gender, or ability

The competitions also enable participants to compete even though they are playing in:

different countries, on different courses*, from **different tees**, on **different days** and involving differing **number of holes**

***Not for Eclectic competitions**

pi2-fgolf COMPETITIONS

All three pi2-f competition formats can be **run at the same time** with the **same scorecard assessment entered** for each.

However, this will require each competition to be **CREATED** separately.

pi2-fgolf COMPETITIONS

Creating any of these pi2-fgolf competition formats is an extremely simple and quick procedure.

As previously mentioned, all a user requires is either the exclusive website **username** or **email address** of each person he/she wishes to invite.

pi2-fgolf COMPETITIONS

Every scorecard pi2-fgolf assessment are eligible for ALL pi2-fgolf competitions

This includes scorecards consisting of:

Holes not completed (no scores)

or even

Holes not played (closed for maintenance)

COMPETITION CREATION

Just click on the Competitions Tab and select the required Competition Rules:

The screenshot shows the pi2-f GOLF website interface. At the top, there is a navigation bar with the following items: "pi2-f GOLF", "F.A.Q.", "User Guide", "Albert Askew - 375 days remaining", and "Log out". Below the navigation bar are several tabs: "scorecards", "competitions", "my details", "refer a club", and "report a fault". An arrow points to the "competitions" tab. Below the tabs is a section titled "Create a new competition...". Under this section, there is a "Registration type:" dropdown menu with the selected option being "Basic, Wholesale Institutions" and "FREE Entry". Below this is a "Competition Rules:" section with several fields: "Competition Name", "No. of Rounds", "Min. Participants", "Max. Participants", "Competition Type", "Hole & Scored Holes", "Stroke", "Reschedule", and "Knockout". A "Create Competition" button is located at the bottom of this section. An arrow points to the "Competition Name" field.

If all 4 stars are present then that particular round did not involve:

- ★ 'Gimmes' (G?) (including Mulligans etc.)
- ★ Winter mats (WM)
- ★ Holes closed (HC)
- ★ Temporary greens (TC) during these rounds

pi2-golf COMPETITIONS

The player should have declared whether 'Gimmes/Mulligans' etc. were taken when entering each scorecard.

- ★ 'Gimmes' (G?)

A pi2-golf registered Club Official has the ability to indicate the following course conditions each day via their: MY DETAILS.

- ★ Winter mats (WM)
- ★ Holes closed (HC)
- ★ Temporary greens (TC) during these rounds

Use the selected Scorecard

The unique **pi2-golf** concept enables **ALL** of the scorecards to be eligible for the competition even though they have been played on **different courses** and from **varying tees**.

pi2-golf COMPETITIONS

Where possible, scorecards should be selected for **pi2-golf 'fun'** competitions using the **following sequence of criteria** in order to **maintain consistency**:

- > Played on the **same day**
- > Played from the **same tee**
- > Played on the **same course**
- > No 'Gimmees', winter mats, closed holes or temporary greens. (all 4 stars present)

Ultimately though, the competition organiser decides this having consulted the rest of the participants

pi2-golf COMPETITIONS

Suggested scorecard selection procedure:

E.G. WEEKLY COMPETITION

1. **SPECIFIC DAY** (e.g. Saturday) if none available then:
(a) (Preferred alternative) nearest dated scorecard in **preceding 6 days**
(b) nearest dated scorecard in the **following 6 days**
2. **HOME COURSE SCORECARD**
If two or more home courses are available select one as the **preferred COMPETITION COURSE**.
3. **SOCIAL ROUNDS** e.g. **Yellow/Red/Green** tee etc. - if none then **White/Blue/Black** Competition tees
4. **ANY OTHER SCORECARD AVAILABLE FOR SELECTION.**
These will be scorecards of rounds **NOT PLAYED ON THE DESIGNATED COMPETITION COURSE**. All are equally valid for selection to any **pi2-golf competition formats** with the **exception of the eclectic**.

pi2-golf COMPETITIONS

If there is no scorecard available the player's yellow box will not disappear. However, the round can still be compiled/completed by clicking the **[Mark This Round As Complete]** button.

Although there is no actual scorecard assessment the website will **automatically include** what it **assesses** would have been a **NORMAL** round for that person.

pi2-golf COMPETITIONS

Having selected a scorecard from each participant for the first round the results can be viewed by simply clicking the word **Scores**

There is a limit however, to how often the website will enter a calculated NORMAL ROUND for a player during the course of a competition.

Once this limit is reached the accumulated points of that player will no longer apply to the table rankings (0 total) due to lack of participation.

pi2-fgolf COMPETITIONS

Points v Most Improved tables

The Accumulated tables are compiled according to the total ranking points (plus bonuses) from each round.

However, rather than basing the competition on ranking points the website provides an alternative to this by identifying which player has actually improved the most (deteriorated the least) over the course of the competition.

This is the recommended option for club officials to use when running competitions involving more than one round to raise funds for the club or a charity.

It ensures that the competition will not result in a tie – a situation which is likely to occur where accumulated ranking points determine the outcome (equal total accumulated points).

Create Competition

As well as being able to create numerous **FREE** competitions like any other user, each of the **eight club officials** have the added choice of creating **fundraising competitions**. This may be for the benefit of the **golf club** itself or a **reputable charity**.

pi2-golf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

Create an **Original** pi2-golf competition in the manner already described.

All pi2-golf competitions have a maximum participation of **128**

It is recommended **NOT TO APPLY BONUS 2's** for fundraising competitions.

pi2-golf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

So if **270** members indicate an interest in a Charity Fundraiser you should consider creating **THREE separate competitions*** each involving **90** participants:

XYZ CHARITY 1
XYZ CHARITY 2
XYZ CHARITY 3

* Refer to the section **ADDITIONAL COMPETITION SUGGESTIONS** on how to determine an overall winner

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

On payment of the Entry Fee use the **Manage Invites** button to enter the member's **pi2-fgolf username** to send them their invitation in the normal way.

THE OFFICIAL MUST RESTRICT INVITES TO CLUB MEMBERS ONLY (as per T&C).

Set a **closing date** by which everyone has to respond to the invitation and, if accepted, pay the entry/donation fee.

By accepting the invitation the participant **IS AGREEING** to submit **ALL ROUNDS OF GOLF** he/she plays for **pi2-fgolf assessment**.

Once started, those who have not responded and paid the will **not be able to participate**.

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

Ideally run the competition over a period of **at least 10 weeks**.

This ensures that all participants are able to play and **enter as many rounds as possible** allowing for **holidays, illness** etc.

Set a **minimum** number of scorecards to be entered by each participant during this competition period (**e.g. 6**).

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

For complete fairness it is recommended that **at the end of the competition** a **random date** is selected from the period involved.

The competition organiser then selects a scorecard from each participant on or nearest that date.

This ensures that **no participant knows beforehand which of their scorecards** will actually be involved

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

If more than one round is involved then **randomly** choose a date within the competition period **for each round**.

These dates **MUST** be allocated to each round in **chronological order** (earliest for round 1 etc.)

In such cases the official will need to notify participants **before starting the competition** whether **accumulated points** or **actual improvement (recommended)** will be applied to determine the winner

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

If numbers mean that **more than one** competition is created then an **overall winner** needs to be identified.

This can be easily achieved by **creating a further competition** sending **invitations to the top player*** of each competition.

Using the **same selection process (same scorecards if available)** the website will rank them accordingly to select the **overall winner**.

If **THREE** are to be awarded then invite the **top 3 players** from each

pi2-fgolf COMPETITIONS

CREATING A FUND-RAISING COMPETITION

Again, if numbers mean that **more than one competition** the official can always **delegate** the creation of each of these additional competitions to **fellow officials**.

However, the **official initially proposing a fund-raising competition** to the members is **ULTIMATELY RESPONSIBLE** – especially the collection of **entry fees**.

pi2-fgolf COMPETITIONS

CREATING A pi2-fgolf FUND-RAISING COMPETITION FOR A CHARITY

When raising funds for any charity it is the responsibility of the official proposing such to not just rely on the website to do so but **PERSONALLY** notify the charity of his/her intentions and **TAKE FULL RESPONSIBILITY** for ensuring that all money raised is received by that charity.

The pi2-fgolf website merely facilitates the running of competitions and as per the T&C's will not be held responsible for any deliberate misuse by any Club Official regarding the raising of funds.

pi2-fgolf COMPETITIONS

CREATING A pi2-fgolf FUND-RAISING COMPETITION FOR A CHARITY

It is essential that when identifying a competition winner all conditions are met in full.

Apart from the obvious (paid the entry fee/donation etc.) the organiser needs to be satisfied that all rounds of golf played by that person have, where possible, been submitted for pi2-fgolf assessment.

This ensures that the assessments are **FAIR** to all participants.

pi2-fgolf COMPETITIONS

CREATING A pi2-fgolf FUND-RAISING COMPETITION FOR A CHARITY

One way to achieve this is to set a condition from the outset.

e.g. A minimum of **THREE** scorecard assessments per round.

In the event of any query or dispute ALL participants must allow club officials to view their pi2-fgolf scorecard history to scrutinise dates, **GROSS SCORES ACTUALLY ENTERED** and subsequent pi2-fgolf assessments.

ONCE OFFICIALS HAVE VERIFIED THAT THESE ARE IN ORDER PRIZES CAN THEN BE AWARDED.

pi2-fgolf COMPETITIONS

In fact, as the pi2-fgolf.com website records the majority of rounds played by an individual and not just those of competitions, it could provide an immediate reference source to help resolve many golfing issues and disputes.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

This is run in exactly the same way as an **original pi2-golf competition** except that:

The original pi2-golf competition compares the overall round assessment of each player i.e. who played better than normal.

The pi2-golf eclectic only includes the best result for each hole from all the rounds selected for a participant during the competition.

It then uses only these to compile a PERFECT ROUND for that player to compare with the other competitors.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

IMPORTANT CONTROL

As this competition is seeking the best score on **each particular hole** from the scorecards entered it is **VITAL** that the **same hole data** is being analysed each time a scorecard is entered.

To ensure this is complied with **ONLY SCORECARDS FOR THE SAME COURSE/TEE** are to be selected for each round of the competition.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

To **ensure consistency** the sequence of **holes** played must be identical having the **same par** and **stroke index** for each round

e.g.

Hole	1	2	3	4.....
Par	4	3	4	5.....
Index	17	11	2	10.....

Furthermore the course must have the **same**

COURSE PAR - SSS or
COURSE RATING - SLOPE

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

This can only be **GUARANTEED** if scorecards from the **same course and tee** are selected each round.

pi2-fgolf COMPETITIONS

THE pi2-fgolf ECLECTIC COMPETITION

WHY THIS IS IMPORTANT

If the **first hole** on the course is a **par 5** then the **best** most golfers can usually expect to complete this hole will be **4 strokes (birdie)** with the extremely rare eagle 3.

pi2-fgolf COMPETITIONS

THE pi2-fgolf ECLECTIC COMPETITION

WHY THIS IS IMPORTANT

If however, a **round played on another course** is entered into the competition where the **first hole is a par 3** then it is quite possible that this could be completed in **2 strokes** (or even a **hole-in-one**)
As the website is identifying the **best score on the first hole to include** then it will **unfairly recognise** the 2 strokes taken.

pi2-fgolf COMPETITIONS

THE pi2-fgolf ECLECTIC COMPETITION

This doesn't mean that every player has to play on the same course to participate.

Each can play on a different course and tee but scorecards must be selected from the **SAME ONE** throughout the eclectic competition

Select scorecards only for:

Player A **River Golf Course** (**Red tee**)

Player B **Forest Golf Course** (**Yellow tee**)

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

As individual handicaps are never applied (or even requested) by the website another issue that arises with regards a pi2-f eclectic competition involves players of differing abilities.

To explain this you only need to consider an extremely good golfer with an average one.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

On the SAME course the skillful golfer (player A) may regularly complete a difficult par 4 in the regulation 4 strokes. During a 10-round eclectic competition there may be an occasion when he completes it in only 3 strokes

The weaker golfer (player B) may normally complete this hole in 6 or more strokes but over the same period there is every chance that he may play it once to par (4 strokes).

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

As the website is compiling a PERFECT ROUND by only including the best score for each hole the 3 strokes will be entered for player A's round and 4 strokes for the weaker player B.

However, when it comes to assessing these two perfect rounds the website will recognise that the completion of this hole in 4 strokes represents a far bigger improvement for player B than that of the 3 strokes by player A.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

Obviously, this situation could arise on a number of different holes throughout the **10-rounds** of the eclectic competition.

Taken as a whole the website will identify the **PERFECT ROUND** of **player B** as being **far better** that of **player A**.

pi2-golf COMPETITIONS

THE pi2-golf ECLECTIC COMPETITION

As **this anomaly will always occur** every time a pi2-golf eclectic competition is created the website provides a **measure to counteract this advantage** gained by the weaker player when **regularly participating with the same group of players**.

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

Selecting the KNOCKOUT Competition option requires the competition to be named and number of holes involved.

Competition Rules:

Competition Name:	<input type="text"/>	No. of Rounds:	<input type="text"/>
Min Participants:	<input type="text"/>	Max Participants:	<input type="text"/>
Competition Type:	<input type="text"/>	All Holes:	<input type="checkbox"/>
Eclitic:	<input type="text"/>	Bonus 2's:	<input type="checkbox"/>
Knockout:	<input type="checkbox"/>	Penalties:	<input type="checkbox"/>

The no. of Rounds and Participants will be determined by the website.

All other options are not applicable

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

Any knockout competition requires the field to be reduced by half until only 1 remains.

This can only be achieved with the following number of participants:

1, 2, 4, 8, 16, 32, 64, 128, 256, 512.....

It is for this reason that the maximum number of participants for ANY of the pi2-fgolf competition formats is limited to a maximum of 128

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

Any knockout competition requires the field to be

1, 2, 4, 8, 16, 32, 64, 128, 256, 512.....

So a knockout competition with 19 entrants will have to be reduced by 3 to 16 in order to meet the above progression.

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

During each round of a knockout competition scorecards are selected in the usual way.

However, once the round is completed only scorecards for **those in the top half are made available for the next round.**

This, in effect, eliminates the bottom half.

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

If there is **no scorecard available** to select for a participant the website **does not** calculate a **NORMAL** round for inclusion.

Instead the Player is positioned at the bottom of the table and eliminated.

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

THE REASON:

If a **NORMAL** round were calculated and included then it is quite possible that a player could **always be in the top half each round** and end up **winning the competition**

without actually participating.

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

TOO MANY PARTICIPANTS

Obviously (unless entry is restricted) the number of participants is likely to be such that it does not allow the field to be reduced progressively by half until only one remains
e.g. 100

1, 2, 4, 8, 16, 32, 64, 128, 256, 512.....

The field needs to be reduced to 64 for this to happen so the website will create a PRELIMINARY ROUND to remove the excess 36 ($100 - 64 = 36$)

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

TOO MANY PARTICIPANTS (100)

The website will RANDOMLY select 72 players (36×2) to participate in this Preliminary Round and only scorecards for these will be available for selection.

The remaining 28 players will automatically go through to the First round of the competition.

Once the scorecards of these 72 have been selected the top half (36) will join the other 28 to contest the First round of 64

pi2-fgolf COMPETITIONS

THE pi2-fgolf KNOCK-OUT COMPETITION

TOO MANY PARTICIPANTS (45)

13 too many for a round of 32 players

The website will RANDOMLY select 26 players (13×2) to participate in this Preliminary Round and only scorecards for these will be available for selection.

The remaining 19 players will automatically go through to the First round of the competition.

Once the scorecards of these 26 have been selected the top half (13) will join the other 19 to contest the First round of 32

pi2-fgolf COMPETITIONS

COMPETITION SUGGESTIONS

Restrict Fundraising Competitions to the Original pi2-fgolf format

Use ACTUAL IMPROVEMENT RESULTS to identify the winner(s)

Where possible apply the suggested parameters – same date/course

Set a minimum number of scorecards that must be available each round from which to select one

pi2-fgolf COMPETITIONS

ADDITIONAL COMPETITION SUGGESTIONS

SINGLE ROUND COMPETITION

Additional Suggestion 1 One month's duration

i) Players must have a minimum of 3* pi2-fgolf assessments during that month.

*This ensures a degree of FAIRNESS with regards to the submission of scorecards

ii) Choose a random date and select one assessment from each player on, or nearest to, that date.

pi2-fgolf COMPETITIONS

ADDITIONAL COMPETITION SUGGESTIONS

MULTI-ROUND COMPETITION

Additional Suggestion 2 Monthly Rounds

i) Players must have a minimum of 3 pi2-fgolf assessments each month.

ii) At the end of each month choose a random date and select one assessment from each player on, or nearest to, that date.

This would lend itself ideally to a 12-round competition running throughout the whole calendar year.

Impose your own rule for months where inclement weather restricts play.

pi2-fgolf COMPETITIONS

ADDITIONAL COMPETITION SUGGESTIONS

MULTI-COMPETITIONS

WHERE PARTICIPATION NUMBERS EXCEED 128

Create 2 or more competitions consisting of an equal number of participants (+/- 1)

IDENTIFYING AN OVERALL WINNER

Invite the top 15* players from each to participate in a new competition

Either:

- Apply the same scorecards for each player as selected in the original competitions to establish who would have come top.
- Run a further monthly round selecting new scorecard assessments

pi2-fgolf COMPETITIONS

ADDITIONAL COMPETITION SUGGESTIONS

MULTI-COMPETITIONS

12-round competition running throughout the whole calendar year.

If participation numbers require more than one competition then:

At the end of the 11th round/month

Create a new single-round competition inviting the top ?* of each to enter a deciding final round over the last month

* Base this on the number of prizes
